

10. MOUNT HAYFIELD TRACK

Terrain: Generally moderate; some difficult slopes **Distance: 6.4 km circuit**
Drive to the starting point via Range Road, then Springs Road, taking the right fork onto Mount Hayfield Rd. Park near the signposted Attril Track turnoff (point 1 on map). This walk passes through native scrub and pine plantations on Mount Hayfield, which is part of the Second Valley Forest Reserve. The trail follows fire tracks and forest access tracks. There are some steep sections either side of point 5 on map, but for anyone wanting to minimise steep sections, simply walk through from point 5 to point 9.
